

AHOM™ RMC Supplier Incentives & Compliance Process

Commitment

At A.H.O.M™ Relocation Management Company Inc. (AHOM™ RMC), we view compliance with human rights laws and ethical practices as a baseline expectation for all suppliers. To strengthen accountability and reward positive behavior, we have adopted the following approach:

1. Preferred Supplier Status

Suppliers who demonstrate alignment with international human rights standards (UDHR, ILO, UNGPs) are prioritized for continued business relationships.

2. Contractual Advantages

Compliant suppliers may receive longer contract terms and increased order volumes as recognition of their commitment to ethical practices.

3. Collaborative Opportunities

Suppliers who show leadership in labor rights, diversity and inclusion, and environmental responsibility are considered for joint initiatives and pilot projects.

4. Termination of Non-Compliant Suppliers

Suppliers who fail to meet AHOM™ RMC's Human Rights & Social Responsibility Policy requirements may face corrective action or disengagement from future contracts.

Conclusion

By embedding these measures, AHOM™ RMC ensures that our supply chain reflects our values of dignity, fairness, and belonging.
